## COMMENTS

Cytaglobal is the international wholesale business unit of Cyta, the incumbent telecom provider in Cyprus. In addition to terrestrial links across Cyprus, Cyta has ownership interests in a number of regional and international submarine cable networks. The company offers lease and IRU access on these systems.

Cyta owns a fiber pair on Telecom Egypt’s TE North submarine cable system. The Cyta subsystem—dubbed Alexandros—connects Cyprus to Egypt and France.

Cyta’s Athena subsystem connects Cyprus with Greece. It consists of two integrated rings. One ring interconnects Cyprus, Crete, and Sicily, and the other connects Crete to the Greek mainland, terminating in Athens.

Cyta’s other subsystem is dubbed Kimonas and consists of a wholly-owned fiber pair that connects Cyprus to Crete.

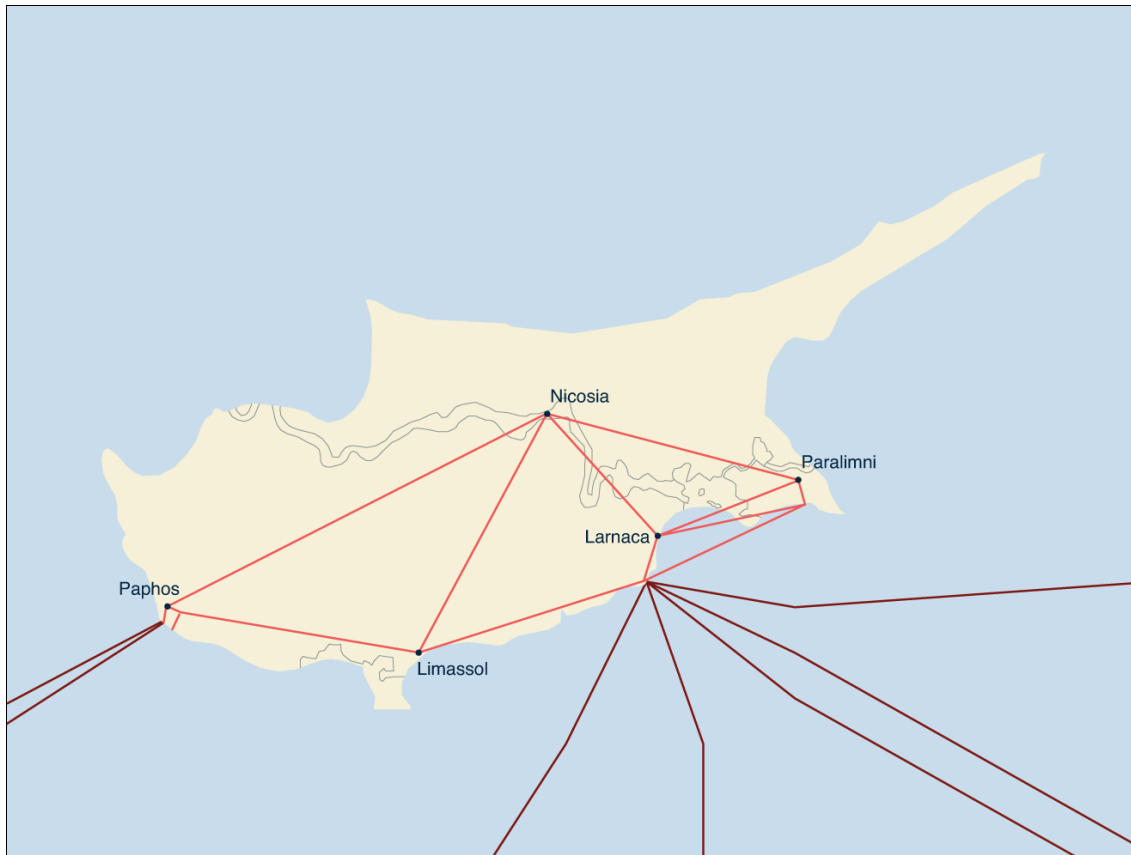

Cyta joined ST of Syria and the Lebanese Ministry of Telecommunications to form a high-capacity ring connecting their respective countries using existing subsystems CADMOS, UGARIT, and BERYTAR.

The newest addition to Cyta’s extensive submarine cable network is a subsystem on the PEACE cable, which became operational in March 2022 and interconnects Pakistan, East Africa, and France. Cyta’s subsystem will connect Cyprus with Egypt and France and is named Arsinoe.
